Dear Ms. Fowler,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2014-372-T and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling
Administrative Coordinator

Subject: Uber issues

I am from the DC area and moved here a year ago. I use Uber because it is safer--we get a tracked route, picture of driver and description of car. They are prompt and friendly.

I used them for my birthday and when the restaurant we wanted to celebrate in was closed, not only did the driver wait for us "just in case" but recommended a great alternative. When I have taken cabs in Myrtle Beach they seem to be expensive and take forever.

Why not give residents and tourists the option? Most tourists come from northern and Midwestern cities that have Uber.

Kim Fowler

Subject: Uber

Uber is safe, convenient and easy. These are the characteristics that I need in the times when I utilize uber. There is need for a no cash transaction, accountability of knowing who your driver will be/was, and the reliability of a large trusted company who is diligent in holding their drivers to high standards.

Love,
An uber user in South Carolina.
Katie

Hello,

When something works great - you support it. That's smart leadership. Don't break what works, don't be the problem. Let Uber work for South Carolina.

Sincerely,
Joseph Caputo

Subject: Got Uber?

Greetings,

I am a recent college graduate who relocated from the Cleveland, Ohio area to the beautiful city of Charleston, South Carolina. With this noted, I am an avid user of Uber in both of my home locations (Cleveland and Charleston). Uber is not only a convenient and affordable means of transit, but a vital industry providing transportation in several major cities across the United States. Uber has assisted me with rides to various venues and locations across the Charleston area in a safe and timely fashion. Whether it is a trip to the airport, auto repair store, or to grab a beer with a friend, Uber has proven dependable on countless occasions. Not only does Uber accommodate the demand of transportation service, but the drivers are those of excellent character with quality personalities. As you proceed to improve the Charleston area one meeting at a time, please consider this feedback as well as the voice of fellow Uber users in this amazing city!

Thank you for your time and consideration,

Sean Roddy
